

## The 5LINX Energy Program

The 5LINX Energy Program empowers consumers with the knowledge to make an informed choice when selecting a competitive supply offer. The program

brings competitive natural gas and electricity offers to residential and commercial consumers in select deregulated markets. Our goal is to increase awareness of deregulation, provide energy savings tips and alert you to the benefits of choosing competitive offers.

### Benefits of Deregulation include:

- Offers more options to choose a supplier
- Provides a portal of competitive supply offers
- Provides potential savings on your utility bills

## Data backup and storage

The files you store on your computer – photos, music, videos, emails, presentations and documents – are irreplaceable, but they're so easy to lose. Hard drive failure, fire, theft or even just accidental user error can wipe out your life's history in a matter of seconds. 5LINX DataVault provides a simple, secure and robust online backup solution that's completely hassle free. 5LINX DataVault takes this one step further, view, share and even edit your documents online from any web browser. Even access your files on the go from your mobile device. Don't wait for a disaster to happen. Back up your files today!

## The Perfect Business!

5LINX® is truly a one-stop shop for all the necessary products and services people use every day. From household needs such as *gas and electric* (in select markets), *digital phone service, high speed Internet, satellite television,* and *security systems* to personal products such as *mobile phones, data backup and storage, personal electronics* and *identity theft protection*, 5LINX has you covered! And even small businesses find essential products in *Business Elite Services* and *TextAlertz®*, as well as with our *satellite, security* and *energy* products.
